

1/4" Air Ratchet
35 ft. lb. Max Torque - 235 RPM
for stubborn fasteners to get the job done quicker

Features and Benefits:

- **Balanced lightweight housing** weighing 1.4 pounds for superior control with less user fatigue.
- **Soft grip handle** with increased comfort and reduced vibration. Insulates against cold.
- **Hard coated motor plates** helps prevent scoring for longer tool life.
- **Improved rotor vane** with more power and speed for greater performance in low pressure environments.
- **Large lightweight selector knob**, easy to turn with greasy hands, easy to reverse direction.
- **Zerk fitting in selector knob** allows ratchet head to be lubricated for longer tool life.
- **Robust head design** for maximum strength and durability, won't separate for longer tool life.
- **All ball bearing construction and high strength alloy steel gear system** that's dependable and durable for longer tool life.

Specifications:

Max Torque, ft. lb. (n.m)	35 (47)
Free Speed, RPM	235
Air Consumption, CFM (SCFM)	1.4 (10)
Length, inches, (mm)	7.75 (180)
Weight, lbs. (Kg)	1.4 (.59)
Sound Level, dBa	85

WARNING

- Wear safety goggles. (user and bystanders)

- Read instructions before use.
